Section B

Environmental Management System

B.1 Environmental Management System Assessment. Please summarize EMS assessments conducted *during the year*. Attach additional sheets as necessary.

a. Was an EMS audit or other assessment done by an independent third party?

☐ Yes ☒ No

If yes, please provide the *type* (e.g., ISO 14001 certification), the *scope*, and the *dates* (mo/yr) of each assessment.

b. Was an internal or corporate EMS audit conducted? ☒ Yes ☐ No

If yes, please provide the *scope* and the *dates* (mo/yr) of each audit.

The compliance audit was conducted on November 5, 2001 by William Weber, Director of Capital Resources and Dylan Remley, General Counsel, as required by the facility's Environmental Management System. On November 28, 2001, the results of the audit were submitted to and reviewed by the EMS review committee for comments and recommended procedural changes. The audit included a detailed review of the facility's liquid handling procedures, storage operations, daily operating procedures, employee health, safety and training procedures, waste disposal procedures and fleet operating procedures. All of these physical areas and operating procedures were audited and reviewed to ensure compliance with the facility's internal EMS as well as all applicable laws. As a result of the audit the EMS review committee made the recommendations that are outlined in Section B.1.e. below. Such recommendations have been fully implemented.

c. Was a compliance audit conducted? ☒ Yes ☐ No

If yes, please provide the *scope* and the *dates* (mo/yr) of each audit, and indicate *who* conducted the audit(s) (e.g., facility staff, corporate groups, third party).

Please see B.1.b above

d. (Optional) If you would like to describe any other audits or inspections that were conducted at your facility, please do so here.

October 2001: Various representatives from the Doylestown Township conducted a facility inspection in October 2001

Section B

(continued)

B.1

e. Briefly summarize corrective actions taken and other improvements made as a result of your EMS assessments and compliance audits.

Upon completion of the audit, a comprehensive Dexil Test training session was conducted. In addition, various staff members were given additional training on the proper methods and procedures to be utilized when conducting the daily and monthly facility inspections required under their EMS.

f. Has your facility corrected all instances of potential non-compliance and EMS non-conformance identified during your audits and other assessments?

☒ Yes ☐ No ☐ No such instances identified

If no, please explain your plans to correct these instances.

g. When was the last Senior Management review of your EMS completed? *mo/yr* November 28, 2001

Who headed the review?

Name: Mr./Mrs./Ms./Dr. Mr. Bill Weber

Title: Director of Capital Resources and Environmental Compliance

Section B

(continued)

B.2 ISO 14001 Certification. Is your facility currently certified to ISO 14001? ☐ Yes ☒ No

B.3 Environmental Aspects Identification. When did your facility last conduct a systematic identification and/or review of your environmental aspects? *mo/yr*
February 2002

B.4 Progress Toward Achieving Objectives and Targets. In the table below, please provide a narrative summary of progress made toward EMS objectives and targets. **You may limit the summary to environmental aspects that are *significant* and towards which *progress* has been made during the *reporting year*.** In cases where progress relates specifically to a Performance Track performance commitment, complete the *Environmental Aspect* column, but in the *Progress* column simply refer to the performance commitment tables in Section C, i.e. "See Section C." Attach additional sheets as necessary.

<i>Environmental Aspect</i>	<i>Progress Made This Year</i> (e.g., quantitative or qualitative improvements, activities conducted)
Emission Reduction Thru PMI's	See Section C
Reduce Fuel Consumption Thru PMI's	See Section C
First Fill Inspection and Labeling Program	See Section C
Waste Reduction Thru In-House Consumption	See Section C
Facility Upgrades Installed Bulk Motor Oil Tanks	Installation of tanks increases the safety of the facility and reduces risk of accidental releases.
Recycled Old Boilers and Furnaces	By implementing a boiler/furnace recycling program the facility has been able to reduce the amount of material that it introduces into the waste stream.

Section C

Environmental Performance Commitments

Please use the tables on pages 6-9 to summarize your facility's environmental performance against your Performance Track performance commitments. Complete only those boxes related to the baseline, current year, and performance commitment. If any of the boxes have been pre-completed for you, please verify the information. If you find information that is incorrect, cross it out and write in the correct information. **Leave blank any columns for future reporting years.**

C.1

Performance Commitment 1

a. Use this table to report data related to your first performance commitment.

Category (see page 16 of the instructions): Air Emissions

Aspect (see page 16 of the instructions): Emissions of Particulate Matter

	<i>Baseline (as stated in your application)</i>	<i>Year 1</i>	<i>Year 2</i>	<i>Year 3</i>	<i>Performance Commitment (the goal stated in your application)</i>
<i>Calendar Year</i>	2000	2001			2003
<i>Actual Quantity (per year)</i>	13,670	11,580			(optional)
<i>Measurement Units</i>	lbs				
<i>Normalizing Factor*</i>	1.0	.86			(optional)
<i>Basis for your Normalizing Factor*</i>	Gallons of fuel oil sold				
<i>Normalized Quantity* (per year)</i>	13,670	13,413			13,608

*See pages 17-19 of the instructions for more information

b. Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

Increased attention and focus by the Company on the performance of Preventative Maintenance Inspections (PMI's) on customer's heating units. This was accomplished through the use of telemarketing and instruction to service technicians to perform PMI's while on existing service calls. As explained in our application, conducting PMI's increases the burning efficiency and cleanliness of each unit and results in a reduction in particulate emissions.

c. Please list any other EPA voluntary programs to which you are also reporting these data (e.g., Energy Star, Project XL).

Performance Commitment 2

a. Use this table to report data related to your second performance commitment.

Category (see page 16 of the instructions): Energy Use					
Aspect (see page 16 of the instructions): Total Energy Use					
	<i>Baseline (as stated in your application)</i>	<i>Year 1</i>	<i>Year 2</i>	<i>Year 3</i>	<i>Performance Commitment (the goal stated in your application)</i>
<i>Calendar Year</i>	2000	2001			2003
<i>Actual Quantity (per year)</i>	13,409,570	12,721,527			(optional)
<i>Measurement Units</i>	Thousand BTU's				
<i>Normalizing Factor*</i>	1.0	.83			(optional)
<i>Basis for your Normalizing Factor*</i>	Increase or decrease in customer account base				
<i>Normalized Quantity* (per year)</i>	13,409,570	11,129,943			12,085,560
*See pages 17-19 of the instructions for more information					

b. Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

Increased attention and focus by the Company on the performance of Preventative Maintenance Inspections (PMI's) on customer's heating units. This was accomplished through the use of telemarketing and instruction to service technicians to perform PMI's while on existing service calls. As explained in our application, conducting PMI's increases the burning efficiency and cleanliness of each unit. Increased efficiency per unit results in a reduction in the amount of energy utilized per unit.

b. Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

Training of all employees on the importance of implementing the facility's First Fill inspection/labeling program for new accounts. Through this inspection process the facility is able to reduce mis-deliveries and deliveries to damaged or inadequate fuel storage tanks and consequently reduce the potential for product releases. The measurement period represents calendar year 2001

c. Please list any other EPA voluntary programs to which you are also reporting these data (e.g., Energy Star, Project XL).

<i>Basis for your Normalizing Factor*</i>	Gallons of fuel oil sold				
<i>Normalized Quantity* (per year)</i>	0	301			1,193

*See pages 15-17 of the instructions for more information

b. Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

The facility instituted a waste oil recycling program program to meet its objectives. Please note that the facility was not recycling any oil during the baseline year and plans on recycling all available waste oil in the future.

c. Please list any other EPA voluntary programs to which you are also reporting these data (e.g., Energy Star, Project XL).

Section D

Public Outreach and Performance Reporting

D.1

Please briefly summarize the public outreach and reporting activities that your facility has conducted during the year. Feel free, but not obligated, to attach supporting materials (e.g., meeting agendas, public announcements). The facility is currently scheduled to conduct a comprehensive preparation drill exercise on May 14 and 15, 2002. Participants in the drill will include the following entities: Doylestown Township, Doylestown Borough, Doylestown Volunteer Fire Department, Bucks County Department of Health, U.S E.P.A. The drill will simulate a large release of heating oil from the facility's storage tank and require actual equipment deployment and response by facility personnel. The purpose of the drill is to familiarize local responders with the facility as well as its personnel and its ICM system.

D.2

Please indicate which of the following methods your facility plans to use to make its Performance Track Annual Performance Report available to the public. Please check as many as are appropriate.

- ☒ Website (URL www.hopheat.com)
- ☒ Open House
- ☐ Meetings
- ☐ Press Releases
- ☐ Community Advisory Panel
- ☒ Other Posted at facility for review

Section E

Self-Certification of Continued Program Participation

On behalf of Brinker's Fuel,
(name of my facility)

I certify that

- ◆ I have read and agree to the terms and conditions specified in *the National Environmental Performance Track Program Guide*. This facility, to the best of my knowledge, continues to meet all program criteria;
- ◆ I have personally examined and am familiar with the information contained in this Annual Performance Report. The information contained in this report is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete;
- ◆ My facility has an environmental management system (EMS), as defined in the Performance Track EMS criteria, including systems to maintain compliance with all applicable federal, state, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- ◆ My facility has conducted an objective assessment of its compliance with all applicable federal, state, tribal, and local environmental requirements; and the facility has corrected all identified instances of potential or actual noncompliance; and
- ◆ Based on the foregoing compliance assessments and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable federal, state, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior manager with responsibility for the facility and am fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is part of the National Environmental Performance Track program.

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 188 hours per respondent annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
